

## Math 115: Precalculus, Fall 2010

# Math Autobiography

You may respond to the following questions by either:

1. Writing on this sheet.
2. Typing up your responses and emailing it to maxx@maxxcho.com. Please label the attached document with your full name and title the e-mail as "Math Autobiography" I would really appreciate your thoughtful and candid responses. Alternatively, you may ignore all questions below and write a 1 or 2 page essay covering similar topics.

Name:

Preferred Name (What should I call you by?):

**Your most frequently used email:**

Phone Number:

1. What are your (potential) majors and minors?
  
  
  
  
  
  
  
  
  
  
2. Why are you taking this course? What are your hopes and expectations?<sup>1</sup>
  
  
  
  
  
  
  
  
  
  
3. Please list your 2 previous math classes, starting with the most recent. Also tell me when and where you took them.

4. For me, math has always been: (circle one in each row)

Very easy	Easy	So-so	Hard	Very hard
Fun	Somewhat fun	So-so	Annoying	I hate it

Please briefly explain your above choices:

<sup>1</sup>Hopes and expectations in math, not in life. For that, you may have to wait until math 130. I'm sorry.

5. What sorts of extra-curricular activities do you do? (For example, sports, music, video games, volunteer work, etc.)

6. Tell me anything else about yourself.
